| 02/20/2009 | Storage 2,000 | 500Lbs | |
| Totals: | | 2,000.00 | 500.00L |

The Cold Storage Module allows you to perform all the functions needed for this business:

1. Items are stored as they are assigned a batch number and the Storage, Loading Charges and Rates are calculated
2. System creates a release invoice automatically based in the Loading/Unloading charges associated with the items/batches
3. Automatic anniversary charges are created to the needed customers
4. Miscellaneous Charges: Different Fees can be charged to the stored items based in parameters created by the user
5. Lot Movement Report
6. Detail Inventory Report
